

Essential facts

- 6 frequency channels
- 6 compression controls
- Broadband limiting of MPO
- RIC technology (with 45dB, 55dB, 65dB, 75dB external receiver)
- Applicable for mild to severe hearing losses
- Slider Control
- 4 memories
- 13 battery (rechargeable option)

Highlights

- Wireless technology
 - Program coupling
 - Remote control option
 - Wireless programming
- Telecoil
- Adaptive directional microphone
- Automatic directional microphone
- SecureTec Nanocoating

Basic Features

- Feedback Preventer
- Natural loudness compensation
- Automatic adaptive noise reduction
- Data Logging
- Input level adaptive beeps
- Low battery warning

Options & Accessories

- Remote control
- Charger
- Wireless programming via ConnexxLink
- Wired programming via programming adaptor 13
